# FOLDING BOX

## FILLING OPTIONS

### ORGANIC SWEET POPCORN

Making your day is just a moment away. In every bag, you will find a combination of the finest wholemeal corn, high-quality organic coconut oil, a pinch of sweetness and, above all, a lot of love for the product that you can taste.

- ✓ Cinema-quality crunchy popcorn
- ✓ Without palm oil and without genetic modification
- ✓ With high-quality organic coconut oil instead of butter
- ✓ 100% vegan and in best organic quality

### ORGANIC SWEET & SALTY POPCORN

Sweet and salty. As varied as life itself, but always on the happy side in terms of taste. Our organic popcorn made from wholemeal corn is refined with high-quality organic coconut oil and gives you the best of both worlds.

- ✓ Cinema-quality crunchy popcorn
- ✓ Without palm oil and without genetic modification
- ✓ With high-quality organic coconut oil instead of butter
- ✓ 100% vegan and in best organic quality

### ORGANIC CINNAMON POPCORN

And you need popcorn with cinnamon. Because our organic popcorn made from high-quality wholemeal corn, refined with organic coconut oil and natural cinnamon, contains everything your heart desires.

- ✓ Cinema-quality crunchy popcorn
- ✓ Without palm oil and without genetic modification
- ✓ With high-quality organic coconut oil instead of butter
- ✓ 100% vegan and in best organic quality

DOING GOOD TOGETHER

# GIVE A GIFT OF ADVERTISING, DONATE A MEAL.

The delicious Swiss chocolate from share will not only bring a smile to the faces of those with a sweet tooth: the palm-oil-free chocolate in the fair trade variety Crispy Flakes also helps, in particular, those in need in poorer regions. The share 1+1 principle means that with every bar of chocolate sold, a meal is donated to someone in need. So with every piece, you're doing good for yourself and others.

ORGANIC MINT TEA

# THE REFRESHING MENTHOL KICK

100 % peppermint

Provides fresh breath & flavour

Vegan and low-calorie

**0** kcal  
per 100 ml

We believe in products that are so pure, perfect and good that no additive in the world could improve them. You will never find sugar, sweeteners or any kind of flavouring in drinks from Ocha-Ocha – but plenty of the good things: just top-quality tea. The only secret ingredient is love. We promise: with Ocha-Ocha you get 100 % “water + plant” and 0 % hot air. Without exception.

# GENERAL INFORMATION

We have put some basic information together for you. Please note that every inquiry naturally has to be dealt with individually as we could not hope to cover every possible case in writing here. Our customer advisers would be happy to advise you and answer any questions you may have by phone. To make sure the advice you get corresponds to your particular inquiry, we require your desired print subject.

---

## Delivery times

Our delivery dates are valid as stated in the order confirmation, in each case within the delivery week/day of delivery. Our delivery times depend on the approval of the printing copies and not on when printing copies were received. We cannot confirm a delivery time without an approval of the printing copies.

In the case of high capacity utilisation, delivery times may be extended (e.g. during the Christmas and Easter seasons)

---

## Perishable foodstuffs

Foodstuffs cannot be exchanged. Please check the goods as soon as you receive them and send us any complaints within 24 hours. We cannot accept any complaints received after this period of time. Once the goods leave our premises, we no longer have any influence on our foodstuffs and thus cannot accept any responsibility or liability either in terms of quality or in terms of the food law.

In warm weather, it might be necessary to deliver some products by cold-storage lorry to guarantee the goods arrive in perfect condition (note: different freight costs).

---

## Corrections

Nothing is printed until you have given us your approval in writing. Making changes to the proof you receive from us does not constitute an approval. You will receive a corrected proof to be checked and approved. Please make sure you check the proof we send you very carefully. If you are at all unsure, give us a call. We would be happy to help you. Your approval is a mandatory part of the order. It has unlimited validity and cannot be revoked. We cannot assume any responsibility for the prints you approve or for errors of any kind which may have been overseen.

If we are in possession of your data 1:1, the proof is created free of charge. We reserve the right to charge a flat rate for changes made to the proof starting with the third corrected proof.

You will be charged for any work carried out by us in preparation for your approval if you subsequently cancel your order. For extra ordered or seasonal goods, we will also have to charge you for these costs.

---

## Order Changes

After receiving the order confirmation, we can only make system-relevant changes requested by you for a fee of 49,- €

---

## Complaints

If you have any complaints, please get in touch with us immediately. We require at least ten per cent of the total order as proof of the fault. Please send the goods back to us as proof in the original packaging. This also applies to any complaints you have about printing. Complaints about the taste and appearance of foodstuffs can only be accepted if you handled and stored the goods correctly.

Example: Foodstuffs must be stored in a dry place and be protected from changes in temperature (warm/cold).

If you have any questions, please do not hesitate to contact one of our customer advisers.

## Damage during transport:

All delivered goods, whether on pallets or in the form of parcels, must be checked immediately for any damage (correct securing, wrapping/boxes undamaged). The driver (freight/logistics company) must be made aware of any visible damage and should confirm this damage in writing on the delivery papers. Please note down the exact details of the damage, including photos, and inform us immediately. Claims concerning damage reported at a later date and/or damage not recorded on the delivery papers cannot be claimed retroactively!

---

## Order quantities

For technical reasons, divergence of quantities up to ± 10% is possible. Depending on the category of product, our products are either counted or weighed before they are packed. This can result in different quantities in individual boxes. The final number is checked and logged by us. If there are any irregularities per packing unit, please check the final number.

---

## Notes on packing

When ordering, please take our packing units into consideration. The specified freight costs are approximated, not binding, and cannot be determined precisely until the order has been completed.

Biscuits, cookies, and other baked articles can break during transport.

## Colours

Depending on the material and product, colours may deviate.

In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory.

When using a transparent, coloured, or metallic base, colour reproduction can vary if a white background is not used. We would therefore recommend that you use a white background, if technically possible, which is charged as an additional print colour (not in digital printing). To avoid complaints about colour, please make sure you include a colour-binding proof.

Unchanged reprints can also demonstrate colour deviation. This is for technical reasons and cannot be avoided. Nuances of colour deviation will therefore not be recognised as a complaint.

---

## Product deviations

Please note that the design of included products may differ from the design in the catalogue. Changes made by the manufacturer at short notice cannot be ruled out. Complaints regarding such changes will therefore not be accepted.

---

## Further processing

Variations can occur during processing for technical reasons. This applies, for example, to press cuts and blanks of cardboard packaging. In the case of foil products, there can be a slight shift of the motif during packing. In the case of solid designs, cutting can only be controlled within a certain tolerance. It is therefore possible that colour transitions in the motif are displaced in the cutting area and thus visible as a fine stripe (of the other print colour) at the cutting end of the packing.

In the case of bags, the content text may be concealed in part by the sealed seam.

## Tetrahedron packaging:

Due to the packaging, it could happen that the position of the printed image varies on the triangular advertising space.

## Sticky wrappers:

Slight blistering may occur and it could happen that the ends of the wrapper may not meet exactly.

---

## Shelf life

The best before date printed on the promotion packaging (1 week tolerance) is based on the delivery date at the time the print is approved. If there are postponements on your part, we will only adjust the best before date at your request and will charge 49,- € for the change. No more changes are possible if the print has already been made.

The best before date can only be guaranteed if the storage is suitable for use with foods. Taking the product specific properties into account, please ensure you store the product in a dry, cool place protected from sunlight. Temperature fluctuations should be avoided, especially with products containing chocolate, as otherwise a bloom of fat (white coating) can form.

---

## Manufacturer's notification on products

In accordance with EU directive 178/2002 for the guarantee of food safety and in compliance with the requirements of the food law, we will be attaching a manufacturer's notification to our products/selling units. For most products, the end customer, dealer, or agency can decide whether he himself as the issuer should be specified on the product packaging or outer packaging or whether the manufacturer should be named. If we are not provided with a manufacturer's notification, we will use our manufacturer. If the end customer explicitly rejects all these specifications, the manufacturer must be released from all claims in writing.

We are obliged to advise you that manufacturer's data must comply with legal specifications. The data are not intended for any promotional purpose.

---

## Declaration

Due to food law regulations in accordance with VO 1169/2001, the declaration must be in the official language of the country in which the goods are distributed. If declared in another language, we can not guarantee the marketability of the goods. The responsibility of marketability in this case passes to the customer.

---

## Distribution list

If the products are to be sent to different shipping addresses, please send us the address data as an EXCEL file with one address component per column (e.g. company1/company2/street/postal code etc.). Just ask for our template. Bills of delivery must be provided in triplicate. Depending on the work involved, additional costs may be incurred.

# IMPORTANT INFORMATION

## Information on creating printing copies

If possible, match our provided imposition layout 1:1.  
Data editing costs will otherwise be incurred.

- Line drawings should have an optimum resolution of 1.200 dpi or be vectorised. Continuous-tone illustrations should have a resolution of 300 dpi.
- When sending files by email, please make sure you use the appropriate program extension (e.g. .indd for InDesign, .ai for Adobe Illustrator, .psd for Photoshop).

### Our programs:

- Adobe Illustrator CC
- Photoshop CC
- InDesign CC

### Open data:

If your document includes any imported/embedded files (e.g. tif, eps, bmp, or jpeg files), please make sure you save these separately! Please change the fonts into character paths to avoid the loading of any other fonts. If this is not possible, send us the fonts (only Mac fonts).

### Please note the following when supplying data as a PDF:

- Your created data should correspond to our layout template, please do not change it.
- PDF compatible up to PDF/X-4 (Acrobat 1.6)
- No encrypted PDF files (password protection or the like)
- No coloured pattern cells/tile patterns
- No comments, form fields, or the like
- No transfer curves
- Leave layout sketches at "overprint" and you must leave it at our separate special colour with the name "Stand"

### Data carriers (if you want to send your data by post):

- Please write your address, file name, logo name, product name, and order number clearly on the data carrier (e.g. CD) and include a printout of the files.
- The printout should include the file name and the name of the printing colour(s) required, e.g. HKS, Pantone.

### The fastest way to order:

Just send your data, including the name of the motif, by email to your customer adviser. If the data exceeds 100 MB, we recommend you send us the data via FTP server. If you have any further questions on exchanging data, please do not hesitate to contact your customer adviser.

Depending on high capacity utilization and material availability, the delivery time is usually 10-20 working days after print approval. Delivery time by individual products, large quantities as well as distribution and individual shipping might be different. We will be happy to provide concrete deadlines as part of the offer or your order.

**The delivery dates stated in the order confirmation apply in each case.**

## Printing information

Fine details, small fonts, and trademarks can smear or disappear. In the case of multi-coloured printing, a colour-binding proof of the provided data is mandatory.

### QR CODE and barcode

Please note that we cannot guarantee that QR codes will be legible.

### Printing methods:

**4-c digital printing:** Paper/cardboard, boxes, foils, labels

4-c designs are available at attractive prices even with small quantities. Register differences cannot occur. The colours are always compiled from the 4-c process. Special colours in accordance with HKS or Pantone can only be approximated.

**Boxes:** Applying a white background to the motif, as is usual with silver boxes in pad printing, is not possible. In these cases, transparent inks are not opaque and therefore often do not achieve the desired colour tone (can look dirty). Please also note that negatively recessed elements will appear in box colours in print. On the other hand, this can result in a very elegant effect thanks to the shining through e.g. of a shiny box. Slight streaking may be visible with extensive colour designs.

Due to the bed-off round surface structure of the product, there may be a slight distortion of the printed image.

**Foils:** Some parts of the sealed seams cannot be printed (see imposition layouts)

### 1-4-colour flexo: Foils

In full-surface printing, register differences are possible to an extent. A fine unprinted line over the foil is a result of the block ends meeting. Colour rubbing on the sealed seam is also possible in full-surface printing. Designs with extensive ink coverage and metallic colours should be varnished to protect them from colour rubbing (counts as an additional print colour).

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:  
- Flexo printing 3%

**Sweets:** In full-surface printing, a white edge (each of 1 mm) remains on the side at the end of the wrapper ends. Due to the block ends meeting, a fine white stripe runs across the width of the paper.

**Note:** Halftone motifs only after a printability check. A colour-binding proof of the data provided is required with multi-colour screen motifs.

### 1-4-colour offset: Paper, cardboard

An attractive price for larger print runs. Printing of special colours in acc. with HKS and Pantone is possible. Fluorescent inks cannot be used.

### 1-4-colour pad: Boxes, dispensers

Register differences are possible to an extent. The double printing of individual colours may be necessary for full-surface motifs (counts as an additional print colour in each case). Slight scratches and unevenness may appear due to the material.

In printing technology, breaks in the screen cannot be avoided. The tolerances for this are:  
- Pad printing 15%

**Sleeve:** A slight distortion is possible on rounded parts.

**We alone make the decision on which printing process we use for our products/orders.**

**The prices are valid from January 1st, 2024 and do not include VAT. Subject to alteration of prices.**

The products in the catalogue are not shown true to the original and differ in size, shape and colour from the original. Printing errors, mistakes and changes are possible. With the publication of this issue, all previous sales documents lose their validity.

The offered Easter and Christmas items are valid for the Easter and Christmas season of 2024. Seasonal article – while stocks last!
